

HEALTHY PEOPLE. HEALTHY COMMUNITIES.

Food Safety Order Form

"Working Healthy"

Booklets on Food Safety now Available

In this easy to read booklet, food workers learn the basics of safe food handling. The booklet is written at a fourth grade level, and has been translated into six languages. It was field tested before going to print and all languages were found to be excellent translations, easy to read and understand. The languages below are available in the booklet and in a test with answer sheet.

"Food Safety:

You make the Difference"

Handling food safely is essential. Without it, people can get sick - even die! This video helps food workers better understand and practice safe food handling. Through five proud, successful food workers from differing backgrounds, this engaging and inspirational documentary style video illustrates the four basic food safety concepts: handwashing, preventing cross contamination, moving foods quickly through the danger zone and hot/cold holding.

Food Safety Flyers:

Food Safety Flyer originals are available in English and 4 other languages. Each flyer graphically describes, with a few words, the basics of food safety. Temperatures, the Danger Zone, cross contamination, cooling and reheating and sanitation are covered. *Each flyer is an original and can be used to make copies.*

To order the "Working Healthy" booklet, "Food Safety: You make the Difference" video and Food Safety Flyers, mail order form with *check to Public Health-Seattle & King County, Supply Distribution & Mail Center, 56 South Lucile Street Seattle WA 98134.
